Dear Elmore County Commissioners

I want to express my gratitude for your community support to our Airmen, their families and our 366th Fighter Wing mission. Taking care of our people through improving their quality of life is one of my top priorities and I am pleased to see Elmore County's efforts in this area.

Fitness and recreational opportunities at the new Western Elmore County Recreation District Aquatic Center will enhance the quality of life of our Airmen and their families. We welcome the potential expansion of year-round aquatic access for our Airmen and their families residing in Mountain Home.

The 366th Fighter Wing has room to expand its mission, and the Air Force has already shown considerable interest in making that a reality. Having a strong community recreational program only makes Mountain Home AFB a stronger contender to future missions. It is with my hope that we will continue to strengthen both our community and the Gunfighter's military capability. I appreciate Elmore County's continued support to our mission, the 366th Fighter Wing "Gunfighters," their families and our civilian personnel.

Sincerely

MICHAEL C. ALFARO, Colonel, USAF
Commander
