

Hello MARCH!

The year is off to a highly productive start. After bringing Andersen Construction on board at the end of 2025, we kicked off the new year with a comprehensive planning meeting and began reviewing contracts, permits, plans, and other key project components. We've now moved into sourcing local subcontractors to submit bids and updated estimates. By the time you read this article, we will have selected our subcontractors and will be progressing to the next steps..

The final phase—along with its subphases—will address every critical component of the construction project, including interior walls and ceilings, plumbing, electrical systems, and all fixtures such as showers, sinks, and toilets, ensuring the facility is fully functional upon completion. Updated cost estimates will be available soon, which will guide us in pursuing appropriate grant and donation opportunities.

The Recreation Foundation remains a strong supporter behind the progress of the Aquatic Center—actively championing the project and pursuing additional funding through grants and community donations. In addition, RFEC offers guided tours of the facility, giving residents an inside look at the ongoing development. If you're interested in seeing the progress firsthand, you're welcome to reach out to arrange a tour.

As always, please direct any questions to office@wecrd.org, and we will do our best to provide an answer. You are also welcome to attend our monthly board meeting, held every Wednesday at 6 PM. Dates and times are published on our website and Facebook.
