

Hello!

As we head into fall, the progress on the WECRD Aquatic Center remains truly impressive. The masonry walls are now complete, and the construction team is wrapping up this phase with framing, installation of sprinkler lines, electrical conduit and plumbing, roofing, painting, sealing, and of course, inspections. Every task finished brings us one step closer.

The Recreation Foundation for Elmore County (RFEC) will continue seeking additional grant opportunities to support the remaining phases of the construction project. If you have fundraising ideas or would like to get involved, we'd love to hear from you—please contact our office at office@wecrd.org.

Our board meets on the fourth Wednesday of each month at 6 PM. Meeting dates and times are posted on our website and Facebook page, and community members are always encouraged to attend.

The Aquatic Center is becoming a reality, and your support means everything as this exciting project continues to move forward. Thank you for believing in our community and supporting this important project!
